## What should you install first?

---

### Step 1

Install your AHA-2940 host adapter board into your PC (see the AHA-2940 Installation Guide)

### Step 2

Run the SCSISelect™ configuration utility to configure the host adapter

### Step 3

Install the appropriate I/O operating environment support software:

- For DOS/Windows—Install ASW-EZSCSI software
- For Windows NT—Install ASW-7800 Manager software for Windows NT
- For OS/2—Install ASW-7800 Manager software for OS/2
- For NetWare—Install ASW-7800 Manager software for NetWare
- For UNIX from SCO—Install ASW-7800 Manager software for UNIX from SCO
- For UnixWare—Install ASW-7800 Manager software for UnixWare

### Step 4

If you have any questions, please call your reseller first. If your reseller is unable to help you, call Adaptec Technical Support at 800-959-7274 (6 A.M. through 5 P.M. PST)
